Smart Vision Health

24/7 Voice AI That Books More Appointments — Without Extra Staff

Never miss a patient call again.

- Answers calls instantly, even after hours

- Schedules directly into your existing system

- Increases booked appointments and reduces admin load

- Pay only $1.99 per successful booking — no contracts, no setup

Designed to support your team — not replace it.

Missed Calls = Missed Revenue

30–50% of patient calls go unanswered in busy practices

Every missed call represents a potential patient who may seek care elsewhere

Front desk staff are overwhelmed during peak hours

Your team can only handle so many calls at once while managing in-person patients

Every missed call is a missed opportunity to fill your calendar

Empty appointment slots directly impact your practice's revenue

Our Solution

Smart Vision Voice AI

The always-available scheduling assistant that:

✅ **Answers every call**

Never miss another patient inquiry, even during peak hours

✅ **Books appointments in real-time using your existing calendar**

Seamlessly integrates with your current scheduling system

✅ **Works 24/7 — including after hours and weekends**

Capture appointments when your competitors are closed

✅ **Requires *zero* training or setup**

Start booking more appointments immediately

Why Clinics Love It

$

$1.99 per booked appointment

Only pay for results

No contracts

Pause or resume anytime

No setup required

Connects to your existing phone system

No new tools

Patients never need to download anything

Effortless, Affordable, Autonomous

How It Works

Patient calls your clinic

Your existing phone number works with our system

Voice AI answers and handles scheduling

Natural conversation flow feels like talking to a helpful receptionist

Appointment is booked directly into your schedule

Integrates with your existing calendar system

Staff receive real-time notifications

Stay informed of all new bookings

It's that simple.

Extended Features That Drive Results

🔔 **Automated Appointment Reminders**

Reduce no-shows by up to 40% with text and voice reminders

🔄 **Instant Confirmations & Follow-Ups**

Send immediate booking confirmations and pre-visit instructions

📅 **Waitlist Fill-Ins (optional)**

Automatically offer canceled time slots to waitlisted patients

📊 **Dashboard + Call Logs**

Real-time visibility for your staff, with full tracking and performance metrics

Every feature is plug-and-play — no new systems to learn.

Value to Your Practice
